PUBLIC, EPA, AND AFFECTED STATE REVIEW:

On April 4, 2007, the public notice on availability of the draft permit and supporting material for comments by persons affected by the plant was published in *The Tribune-Courier* in Benton, Kentucky. In addition, notification of the issuance of the draft permit was sent to the U.S. EPA and affected states, on March 22, 2007 via e-mail. The public comment period expired 30 days from the date of publication.

Comments were received from Westlake Vinyls, Inc. on May 4, 2007. The Response To Comments document lists the comments received and the Division's response to each comment. No changes were made to the permit as a result of the comments received, therefore the Division has concluded that the proposed operation will comply with all air quality regulations and requirements. The permit is now being issued final.
